Changes to Sports Physical Policy

Current MCC student-athletes with a valid sports physical for the '19-'20 school year are NOT REQUIRED to complete a sports physical for '20-'21. However, the Sports Health Questionnaire MUST be completed for those student-athletes with a valid '19-'20 sports physical. All NEW student-athletes (transfers and students who did not participate in sports last year) MUST still complete a sports physical before the first day of practice.

Parents who want their student-athletes to have a sports physical for the '20-'21 school year are certainly welcome to do that and the athletic department will keep a copy of it on file.

Clarifications on Pay-to-Play

Please note the following information regarding pay-to-play:

Any student-athlete, grades 6-12, who participates in a school sponsored sport, is required to pay to participate. These fees are used to provide for an on-site athletic trainer for high school sports, first-aid supplies, official fees, and other athletic related expenses. **The Pay-to-Play fee covers each student-athlete's participation for the duration of the school year. Therefore, if a student-athlete plays multiple sports, only one Pay-to-Play fee is required.**

Student-athletes who participate in non-MCC hosted Co-Ops (swimming, girls golf, boys tennis, lacrosse) are subject to the host school's pay-to-play fees.

If you are having financial difficulties, please do not hesitate to contact Casey Christensen, Director of Athletics at 231-755-2201 x3460. Any and all disclosures will be kept confidential.
