**Story Record:** A story record is listing of important moments in a text and it should track important details about the plot, character, setting, dialogue, etc... Each story record should contain at least 40 entries with specific page numbers for each entry (see attached example). Since you may not know what is important until you start writing in the late fall, include as many details as you can so that your story records will be the most helpful when you return to them.

pg1-3	seting of the room of M	chapter1
pg4	talks about the choices in living in his environment	chapter1
